### 8.2. Exposure controls

### Personal Protective Equipment

| Eye/face protection             | Wear safety glasses with side shields (or goggles).  |
|---------------------------------|--|
| Hand protection                 | No special protective equipment required.  |
| Skin and body protection        | No special protective equipment required.  |
| Respiratory protection          | No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required. |
| General hygiene considerations  | Avoid contact with skin, eyes or clothing. Wear suitable gloves and eye/face protection. Do not eat, drink or smoke when using this product.                             |
| Environmental exposure controls | Prevent that the undiluted product reaches surface waters.   |

# SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

| Waste from residues/unused<br>products                  | The waste codes/waste designations below are in accordance with EWC. Waste must be delivered to an approved waste disposal company. Waste is to be kept separate from other types of waste until its disposal. Do not throw waste product into the sewer. Where possible recycling is preferred to disposal or incineration. Empty, uncleaned packaging need the same disposal considerations as filled packaging. For handling waste, see measures described in section 8. Dispose of in accordance with local regulations. |
